TAYLOR, BOUCHIER & PETERS GET CONTRACT FOR TRUNK SEWER

City Council Last Night Awarded Contract Aggregating
Over \$200,000

The tenders for the extension of the waterworks and sewer system of the city were opened yesterday by the commissioners and a before the council at its meeting in the city hall last night.

The first contract is for a trunk sewer along the city property parallel to First Creek along Edmonstone avenue on First from Edmonstone to Churchill avenue, on Churchill from First to Ninth, on Ninth from Churchill across C. N. R. tracks to Mackenzie avenue. Tenders were received from the following contractors:

Taylor, Boucher & Peters... \$162,556
Builders' Supply and Construction Co. 186,000
Check tender of City Engineer, 198,000
Canadian White Co. 253,000
The second contract is for a concrete sewer on Mackenzie avenue from Twelfth street to Fifth street, on Twelfth from Mackenzie to Jasper, on Jasper from Twelfth to Fifteenth. Tenders:

There were three tenders for the laying of the water mains:
R. R. Whiteman 11,611
Shannon & Graham 11,334
City engineer, check tender 11,888
Taylor, Boucher & Peters 12,754
The contract was awarded to Shannon & Graham.
Tenders were also received for boulevarding Twelfth street and for travelling Ninth street.
For boulevarding Twelfth street:
D. Ricker \$1,200
City engineer, check tender 956
The council decided to take no action until the sewer was completed.
For travelling Ninth street with six inches of gravel:
D. Ricker \$2,625
City Engineer, check tender 2,169
It was decided to take the engineer's figure and do the work by day labor.

FIRST CLEARING HOUSE RETURNS

The Edmonton clearing house, which opened for business for the first time on Tuesday of last week, has published the figures of the clearings of the first week, ending on Saturday, the 7th, the amount being \$615,715.32. Considering that this amount represents the business of only five days, in which three were half holidays, and that it also represents local settlements, the record is remarkable, and the managers of the city banks are well pleased with this remarkable beginning.
The clearing house is established in the Anderson block. It opens at ten a. m. each business day, and is open only long enough to allow the representatives of the various banks to make their exchanges, which takes generally about ten minutes. J. R. Benson, of the Imperial Bank, is manager.

CITY COUNCIL MET LAST NIGHT

Regular Weekly Session Held in the
Chamber Last Evening

The city council met last night and in the absence of the Mayor Ald. Picard presided. The Aldermen present were Messrs. Calhoun, Latta, Griegbach, Bellamy, Manson, Smith, Mays, Commissioners Kinnaird and Hargreaves, Mr. Newall for the city solicitor, Mr. Collings and Engineer Keely were also present.

Several matters came up and were disposed of. A duly signed petition asking for a cement sidewalk on the north side of Jasper ave. between Fourth and Fifth streets was granted. Ald. Mays wished to know what was the defined policy of the commissioners in maintaining lanes. Commissioner Kinnaird said it was the policy to allow and compel the owners to maintain the lanes in a passable condition. The bad state of a lane near the Masonic Hall was referred to the Nuisance Inspector to see if it was due to the water off the said hall.

A letter was read from the C. P. R. asking the privilege of erecting telegraph poles to carry their wires to the new C.P.R. telegraph office on the north side of Jasper west of McDougall street. They asked permission to attach their line to the present telephone pole at the southwest corner of Jasper avenue and McDougall streets. The matter was referred to the commissioners.

The council ordered that the grant of two thousand dollars to the Board of Trade be paid.
The Secretary Treasurer reported on the sale of the lots recently set up at auction by the city. Only one lot was sold. Ald. Smith thought the council had erred in putting an upset cash price upon these lots as it deterred the small investor who wished to procure a home. He thought they should be offered upon terms and that some of them should be retained to form parks and decorative spots, and thus prevent the city paying large sums in future for such purposes.

COUNCIL WILL NOT INTERFERE

Williamson Bros. Ask for Reprieve
But Council Stands Pat

At last night's council meeting Mr. Short appeared on behalf of Williamson Bros., asking that the council withhold proceedings in the case now pending in court against this firm. The action of the council and health department, was virtually intended to drive the firm out of the city. The industry carried on was an important one to the city and surrounding community and had been established before the city boundaries had been extended to include pigery and slaughter house. He acknowledged the establishment was of such a nature it was difficult to handle it without inconvenience — a pigery was by no means a geranium garden. No locality had as yet been set aside by the city for the advantageous location of such industries, and Williamson Bros. were merely waiting until railway facilities were assured that when they did locate near site it would be permanent. Williamson Bros. had written the Health Department to find what terms would be satisfactory for the maintenance of the pigery until they could provide a permanent site, but no answer came, and since the city itself had a place equally as bad in the nuisance ground it was like the devil proving sin. The firm were merely asking for reasonable time to move out, and would comply with any reasonable regulations imposed by the authorities. They asked that their vested rights be not too ruthlessly disregarded.

Ald. Picard thought the firm should not be persecuted and driven away because very soon the city would have to decide upon an area for the situation of such industries.
Ald. Bellamy thought the pigery had been a nuisance long enough and that the council should not interfere. The firm had sufficient notice to abate the nuisance. Besides the pigery was a nuisance, the city had the right to require the maintenance of pigs within the city limits.
Ald. Latta thought that sufficient time should be given the firm and the matter settled without recourse to the courts.
Ald. Griegbach declared the council would satisfy itself if it interfered. The case was now being investigated by the city and provincial health authorities and the matter should take its course.

Mr. Williamson then addressed the council and denied the charges laid in the information charges of the health officers. The firm had carefully observed cleanliness and regularly in removing offal from the slaughter house. Only on one occasion had any offal been left past a reasonable time, and that was by mistake. They had been charged with permitting the liquid manure to enter a running stream, but everybody knew that Creek was a running stream. There were other similar businesses in the city and nothing was said of them. The firm was discharging from twelve to sixteen thousand dollars among the farmers every month.
Ald. Manson thought a pigery would be put on the city, but since Mr. Williamson had informed them no pigs were kept there now and school did not reopen until the 17th of August nothing should be done against the firm until that date to give them a chance.

Ald. Manson thought Williamson Bros. had shown a tendency to ignore public opinion a little too long.
Ald. Bellamy thought it was a standing nuisance, and the council was not to be misled by any untrue statements. No action was taken in the matter and the case will come up in police court to-night.

WILL PROROGUE TOMORROW

Business in House of Commons Will
be Concluded Today

(Special to the Bulletin.)
Ottawa, July 11. — Prorogation will take place Thursday, so Sir Wilfrid Laurier stated in the House yesterday. The only work remaining in the Commons is the third reading of the Pension Bill and the Supply Bill. In the Senate the Sunday Observance Act has been reported with several amendments, one of which permits railways to do such work necessary on Sunday as to keep their lines clear. Any vessel inland or ocean going that is delayed can load or unload on Sunday. Live stock can be unloaded on Sunday. The clause declaring it unlawful for any person or corporation to permit an employee to work on Sunday without 24 hours rest in the week was amended by substituting require for permit.

The games and amusements and the excursion clause was amended by declaring that the act should not interfere with any provincial act now or hereafter.
Provision was made for accepting public meetings where a fee is charged if held in a church. Application was made that there could be no prosecution without the consent of the attorney general of the province in which it is alleged the offence has been committed. An amendment to exempt Jews and Seventh Day Adventists from prosecution for Sunday work if they observed Saturday was defeated, and the amendments were concurred in. The bill stands for third reading.

LADY HAS VERY NARROW ESCAPE

Strathcona Residence Near Duggan
Street School Struck by Lightning

(Special to the Bulletin.)
Strathcona, July 10. — Mrs. Wm. McEachren had a thrilling experience last evening during the thunder storm. Her residence, situated near the new Duggan street school, was struck by lightning, which struck the chimney and came down the stove pipe. Mrs. McEachren was sitting rocking while the children were near. The electric fluid tore the shoes and stockings off her feet, stunned her and the children and knocked the stove out of position. Dr. Collinson was at once sent for and found the mother badly burned and suffering from the nervous shock. The present indications are that her injuries are not serious.

ADDITIONAL SOCIAL AND PERSONAL

W. G. Plowright went south to Calgary yesterday.
H. G. Beresford came in from Athabasca River yesterday and is staying at the Grand View.
William Grassie, of the firm of Dalton & Grassie, real estate dealers in Winnipeg, is in the city registered at the Windsor.

MAY BUILD SPUR TRACK IN LANE EAST OF NAMAQ

Cushing Bros. and Edmonton Wool and Wood Co. Granted
Permission to do so

Mr. Short, of Messrs. Short, Cross & Bigger appeared before the council last night asking permission on behalf of Cushing Bros. and the Edmonton Wool and Wood Co., to construct a spur line along the lane east of Namaqo avenue from the C.N.R. tracks to their mills under the terms upon which concessions are usually granted. The request was concurred in and granted upon the same terms that were accorded to A. McDonald & Co. on a former occasion.

SOCIETY OF EQUITY MEETING

The regular quarterly meeting of the delegates representing all the local unions in Northern Alberta of the Canadian Society of Equity met yesterday afternoon in the city hall and held an interesting session. Despatch much important business.
Mr. Moran, president of the Provincial Union, of Fort Saskatchewan, presided over the deliberations of the delegates, and Mr. William J. Keene, of Edmonton, secretary of the Provincial Union, acted as secretary.

The main object of the convention was to consider the advisability of amalgamating with the Alberta Farmers' Association. The decision of the convention was the appointment of a committee of three to confer with a similar committee from the A. F. A. appointed at Calgary last May.
A resolution was adopted to the effect that a petition be sent to the Department of Agriculture asking that the government take some action to eradicate that poisonous weed known as Wild Parsnip which is causing considerable loss to the cattle owners in the vicinity of Cooking Lake and further that the government devise some specific antidote for the effects of the poison contained in the weed.
The convention held an evening session in the Queen's Hotel.

—Toronto News—Can anything give us eastern folk a better idea of the growth of the new west than the intelligence that the circus has invaded the new provinces of the Dominion? Ten years or so ago, a circus proprietor would as soon have thought of taking his mammoth aggregation of animals and human curiosities to the north pole as to Northwest Canada. Yet to-

INJURED BY LIGHTNING

John McLellan, of this City, Rendered Deaf and Dumb by Shock during Storm on Monday Evening

John McLellan, a well-known resident of the city, and a recent candidate for aldermanic honors, was the victim of a very unfortunate and at the same time a rather curious and unusual accident on Monday evening during the severe electrical storm which visited the city.

Mr. McLellan lives on Sixth street, north of Jasper. At present his wife is on a visit to friends in the Western States, and the house is being occupied by Mr. and Mrs. B. H. B. McLellan, however, has retained rooms in the house, and on Monday evening retired as usual, while the thunderstorm was in progress. On Tuesday morning, he did not appear at his breakfast table at the usual time. This aroused the curiosity of the other inmates of the house, but no investigation was made until noon, when a terrified servant entered the room and found Mr. McLellan lying on his back, unconscious.

Dr. Park was immediately summoned, and Mr. McLellan was removed to the general hospital. On examination Dr. Park discovered that Mr. McLellan's left arm was completely paralyzed and that he had neither the power of speech or hearing. Mr. McLellan did not regain consciousness until last evening, when he told Dr. Park the story of his accident, which was that he had been sitting at his desk, writing on a slip of paper. He said: "I retired to my room and was preparing for bed when the storm came up. I went across the hall to the room occupied by Angus McKenzie to shut the window. While in the act of shutting down the window, I was struck by the lightning, and was barely able to crawl to my bed. I remember nothing more after that."

Dr. Park said this morning that this is the first case of the kind that he had experienced, but he was confident that Mr. McLellan would in time be restored to perfect health, with the powers of speech and hearing restored. Mrs. McLellan has been telegraphed for, and Mr. McLellan will be removed to his home upon her arrival.

The Canadian branch of the Amalgamated Society of Equity will hold a monster farmers' picnic at Morinville on Wednesday, July 15, when 5000 in prize will be distributed to the winners in the various athletic contests. A brass band will be in attendance. Dinner will be served on the grounds and local provisions for the picnic will be twenty miles north west of Edmonton on the new C.N.R. extension. Take the St. Albert trail.

FOSTER VS. HATFIELD

Hatfield, the rain-maker, has succeeded in inducing rainfall in the Yukon and incidentally in filling to the brim the measure of life's bitterness for Hon. George Eulas Foster. These Yukon showers have extinguished the only ray of hope that has glimmered on the pathway of the member for North Toronto for many a day. Since the "blue rain" forecasts of '96 fell before the awakening prosperity of the country like shadows before the dawn, Mr. Foster has been up against it. The hope of picking holes in Mr. Fielding's financial policy faded long ago; the country continued to wax wealthy with annoying disregard of the tariff theories of the Opposition; people began to believe Canada was a country worth living in and have been marching in annually increasing multitudes to occupy the waste places of the hinterland; departments which had been sink holes for public money began to pay their way and even the inter-colonial white elephant woke up and began to do business as a railway. All this was bad, very bad, for Mr. Foster. But at last came the glimmer of a hope. The Yukon council wanted rain-fall to enable the miners to work their claims, and engaged one Hatfield, a Californian, to supply the need. This was Foster's chance and the Honorable George devoted his talents to ridiculing the rainmaker and his methods. Somewhat curiously, the remarkable success of Hatfield in California, was construed into an argument why he should not be permitted to tamper with "the mechanism of the universe" in the Yukon and all the unquestioned irony and sarcasm of Mr. Foster was taxed to describe the dire consequences which might ensue. The Government, he figured might have caught the ideas of commerce and finance, but could scarcely be in league with the powers which control the weather. Poor George, even the elements are against him. The first day Hatfield got a drizzle, the next a shower, and thereafter a torrent whenever he has exploded his chemistries. Surely this is the limit. Mr. Foster's faith in the efficacy of cold water will be gone forever and he may next be heard from as the founder of a society pledged to "touch not, taste not, handle not" the sovereignty which has quenched the only trans-continental dry-dog across the gassy pathway of his later days.

THE NEW POST-OFFICE APPROPRIATION

As was to be expected the Winnipeg Telegram is exclaiming with alacrity at the appropriation of \$200,000 for a post office for Edmonton.

A \$200,000 post office for Edmonton, we are informed is so premature as to be a luxury—a class of things from which it must be admitted this city was singularly free under the former Federal Government.

The appropriation is referred to as a sign that the Minister of the Interior is "patronizing" Edmonton—a charge which was never suggested against Mr. Oliver's predecessor in the representation of Edmonton at Ottawa.

The purpose of this supposed patronage is given as a desire to curry favor with the electors—though it has yet to be shown from the history of Mr. Oliver and of the election campaigns of the past ten years that the Minister of the Interior has either the inclination or the necessity of inculcating popularity by any such means.

The Telegram seeks to bolster up this flimsy case by arguing that the "appropriation is not equitable," intending apparently to convey thereby the impression that Edmonton is getting an unfairly large proportion of the appropriation for the development of postal facilities in the west.

Had the Telegram asked the appropriation was not "equal" it would have been right because the conditions here and elsewhere in the west are not equal and the conditions being unequal the appropriations to meet those conditions are necessarily and properly unequal. Whether or not the appropriation is "equitable," depends not on whether or not the division of the funds is "equal" but on whether or not the division is in accordance with the respective requirements of the communities which share in that division.

Outside the city of Winnipeg, there is no city in Western Canada which promises to require in the very near future such large postal facilities. Edmonton is now the intersecting point of two railways. Proudly by the time the new post office building is completed the Grand Trunk Pacific and the C.P.R. short line will have been completed. The postal arrangements of the city will then be called upon to handle the mail for a city at least twice and probably three times as large as the city of today. More than that the Edmonton post office will be required to provide accommodation as a distributing point of the mails for the towns and villages along seven mainlines of railway radiating easterly, westerly and southerly from Edmonton. Still more, the development of the settlements now existing and of those which will come into existence along the branch lines of the new roads may be relied upon to alone double the work of distribution now done in the local office. These certain changes of the near future confronted the Post Office Department with the necessity of making provision before hand for handling through the office in this city a larger volume of mail than now passes through any western post office outside the city of Winnipeg.

On the other hand probably no other city in Western Canada has been more in need of largely increased postal accommodation than the city of Edmonton.

This problem before the Department was therefore that of larger quarters needed to handle the business already existing and to provide also for probably the most phenomenal increase in business of the present need could of course have been fitted over by a building far less pretentious than that proposed but the course of prudence was to make reasonable provision at once for both the present and the immediately prospective requirements.

Had the Government adopted the penny-wise course of providing only for the present existing business the new building would scarcely have been occupied until the staff would have been turned out again while the nations reconstructed and enlarged the structure to meet the new business. This of course would have meant longer delay, heavier expense, and greater demoralization of the local postal service than the erection of the larger building at once. And among the critics who would have been found ready to point to the edifice as an example of Government bungling none more willing than the Winnipeg Telegram. That the Telegram advocates this course which could only have led to extravagance and inefficiency may be taken as an evidence of the course it would be pleased to see the Government pursue and also as a sample of the course which would be followed by the Telegram and its friends were they in power.

We don't ask you to buy

Westmount

Because it is near the G.T.P. yards etc. It may be that there are some people who are fond enough of coal dust and smoke, the rumbling of trains, the tooting of whistles and the ringing of bells for twenty-four hours every day, to want to live somewhere within half a mile of what are bound to be very busy railway yards but we believe there are some people who would just as soon live a little farther away.

We ask you to buy

Westmount

Because it isn't near the G.T.P. or any other yards Just put on your thinking cap, size up the situation and arrange to buy where the choice residential property can be had. The G.T.P. yards are going to prevent the city growing Northward. As it is bound to grow it must grow East and West. WESTMOUNT is undoubtedly the finest suburban property in the West End. Just outside the city limits on the St. Albert road—between the West end city park and the city.

Large lots \$100 up, 1-3 cash, balance 1 and 2 years, 7 per cent.

LABOR AND RAILROAD SUPPLIES VERY SHORT IN WESTERN CANADA.

(Special to the Bulletin)

Winnipeg, July 10.—Advice received from the various railroad construction camps in western Canada indicate that labor is exceptionally scarce this summer and wages are higher than ever before. This is due to the abnormal activity in railroad construction—an activity that may be gauged by the fact that this season is likely to see 5,000 miles of track added to the railway mileage of Canada against 500 miles last season. When the harvest commences, which will be during the latter end of July, labor will be at a premium and thousands of men will be required. This extensive development has also caused a shortage of ties and prices for first class ties in Winnipeg at the present time range from 32 to 40 cents each, and in the mountains from 22 to 30 cents. So far the orders placed by the various companies have been filled, but there is a strong possibility of ties becoming almost unobtainable before many weeks. Mules are also in great demand, many caravans arriving every week from Missouri, Texas and other mule raising states, and it is reported that of late several of the large orders have been hard to fill.

CRITICAL CONDITION IN EGYPT.

London, July 5.—Parliament and the country were given a surprise tonight by an unexpected and sensational speech by Sir Edward Grey, the foreign secretary, on the situation in Egypt. An interesting debate on foreign affairs had been anticipated when the House of Commons took up the foreign estimates, but on account of Russian and the Congo affair, rather than Egypt. All other subjects, however, were temporarily forgotten when the House realized the momentous character of Sir Edward Grey's deliverance with regard to Egypt. Speaking in a solemn tone and amid a tense silence, the minister declared that the recent attack on British officers at Tantah, was not accidental, but a deliberate manifestation of the fanatical spirit—which had necessitated the strengthening of the garrison in Egypt and he added that unless the authority of Lord Cromer and the Egyptian government were strongly upheld, it might lead to a situation requiring the adoption of such extraordinary measures to meet the emergency as would be especially distasteful to the Liberal government.

During the consideration of the foreign estimates several members offered criticisms, especially urging that a fleet be sent to Constantinople.

John Dillon, Nationalist, strongly denounced what he termed the brutal barbarism of flogging and executions in Egypt, accusing Sir Edward Grey with a desire to cloak the affair. Sir Edward in a general reply, stated that all foreign relations were friendly. With regard to the Egyptian affair, he accepted full responsibility, and pointed out that danger might arise when dealing with eastern peoples, through a confusion of this kind. The secretary proceeded to refer to the growth of fanatical feeling in Egypt and throughout North Africa recently, which might necessitate even further measures to protect Europeans in Egypt and speaking in a solemn manner, said "As things are now, I say deliberately and with full sense of responsibility if parliament desires at this moment to weaken or destroy the authority of the Egyptian government, you will come face to face with a very serious situation. For should fanaticism get the better of constituted government, there might arise the necessity for extreme measures."

Dealing with the Congo question, the foreign secretary said he distrusted the proposed reforms, because the system was wrong. He disliked trading companies, and believed the root of the whole mischief was in the system under which the state itself was a trading company and monopolist companies held administrative power. If other powers would join Great Britain in insisting upon reforms, the government would welcome them. If the Congo state talked of its right, Sir Edward said Great Britain also had rights. The question of the reservation of forest areas for private properties must be dealt with. He believed it would be beneficial to resume British consular jurisdiction, but it would be discouraging Belgium from taking over the Congo government and therefore he thought the government should wait, but they could not wait forever.

With regard to the proposed visit of a British fleet to Kronstadt, the foreign secretary said he felt assured that the central government of Russia neither was aware of or had connived at the recent unfortunate occurrences. No interference from the outside would strengthen a reform party, but rather reactionaries and revolutionaries. As a British fleet "was in the Baltic last year and had not visited Russian ports, it would be remarkable if a fleet should go on this year. He hoped the usual civilities would be observed. The fleet would go entirely without reference to Russian internal affairs. It would be impossible to make a change now without giving color to the suspicion that Great Britain was taking sides.

The visit would be in a friendly spirit to pay compliments to Emperor Nicholas and the Russian nation. Sir Edward said he could not imagine the Russian parliament interpreting the visit as taking sides. The only safe policy in the present Russian trouble, he added, was to avoid comment and in-

terference. Through all that was happening there were signs that the vitality, energy and character of a great people were working to a great end.

INDIAN CHIEFS TO VISIT KING EDWARD

(Special to the Bulletin)

Winnipeg, Man., July 10.—A party of Indian chiefs from British Columbia, are now crossing Canada en route to England, where they will visit King Edward to place before him certain grievances against their white protectors. All the important chiefs of the Pacific province are in the party with the exception of Chief Louis Good, of Nanaimo. They are making the trip in a leisurely manner, stopping off at certain places to pick up other delegates who were unable to attend the rendezvous near Vancouver. These Indians claim they have no complaint to make against the Indian agents, but wish to get certain privileges granted regarding the game laws in British Columbia as they claim almost all kinds of game and fish are practically extinct on their reservations. The chiefs are very reticent over their plans but it is said they will ask the king to grant them the right to hunt and fish over all waste crown lands as promised them by Lord Dufferin when he was governor-general of Canada. Chief Joe Capilano is leader of the party and is accompanied by several Indian agents who will act as interpreters.

AMERICAN CANNED MEATS IN WINNIPEG.

(Special to the Bulletin)

Winnipeg, Man., July 10.—For years past the sale of American canned meats has been exceptionally heavy in Winnipeg, especially at this time of year when so many camping and picnic parties are going out, but owing to the recent packing house disclosures the sale of this commodity has almost completely dropped off. At first one of the largest retailers in this city stated his sales of canned meats had dropped off fully ninety per cent but yesterday he said it is now a most unusual thing for a customer to ask for any American canned meats. The men in the large lumber camps have refused to touch any Chicago brands with the results that the camps have been obliged to return all their American meats and have them exchanged for Canadian. Americans who reside in the city lead in their prejudice against the Chicago goods and one man, who has always purchased a fancy brand of Chicago lard, now refuses anything but dairy butter for cooking purposes. All American goods have been affected by the recent disclosures and in consequence many of the dealers are refusing to handle anything made in the United States.

A BUSINESS LIKE BANDIT

(Special to the Bulletin)

Prince, July 10.—A dispatch to the Republican from Brandon announces that the high way man who held up five stages near Wabane on Saturday night has been captured. The name of the bandit or particulars of the capture could not be ascertained. The arrest was made at Wabane. The first authentic information was received here last night when J. P. Trabbitt, of Riverside and Miss Amy McElabaker came out of the valley. The robbery occurred six miles from the stopping place at Wabane. At that place the road winds around the side of a hill and comes to a sudden point. At this point the robber stepped out and ordered W. A. Palmer, the driver of the first stage to stop. The latter quickly complied. The highwayman wore a black mask and had sacks tied about his feet to prevent leaving any telltale tracks as a clue for pursuing him. He held in his right hand a rifle and when he ordered the passengers to alight all quickly got out of the stage and lined up on the road with their hands above their heads. H. W. Elliott from Hornillos was ordered to take the express box from the stage. While he was waiting for the other stage to come up the robber shot the lock off the Wells Fargo box and rifled its contents. The bandit stopped the other stages in the same way, lining the passengers up and keeping them covered with his gun. When all the passengers were lined up, forty-five in number, the bandit with a show of safety settled on a young and pretty girl as his assistant and told her she was appointed collector. She hesitated a moment and then went about the work. The girl did not come up to the robber's requirements and he told her she was a poor highway man, ordering her to get into line and appointing a man to take her place, requiring him to search the passengers. An English woman and her daughter were in the party and when the robber reached her she dropped in the road in a dead faint. He only laughed as he searched.

ANOTHER GOLD STRIKE AT COBALT

(Special to the Bulletin)

Cobalt, Ont., July 10.—A story of a sensational gold find comes from Ville Marie, a small town on the Quebec side of Lake Temiskaming, being brought to town by Jack Munro, a well known local man. A Renauit and an old country Frenchman brought

from Ville Marie a specimen of gold quartz a foot long, six inches wide and three inches deep. These men report the ore body as being very large, so large in fact, that they could not ascertain its extent. The mine is located in some 70 miles north of Ville Marie. This find is of additional importance coming after the discovery of gold in Lake St. John and other districts. Old prospectors believe there is a large gold field situated not far from here which will rival the Klondike in richness and at the present time many prospectors are touring the country in the hopes of discovering it.

CANADIAN WEATHER

(Special to the Bulletin)

Winnipeg, July 10.—Some interesting statistics have been compiled in Eastern Canada regarding the weather in different localities. In the sunshine table for 1904 Winnipeg heads the list with 194 days during the year. Calgary comes a close second with 189 days and Edmonton third with 187; the number of days of sunshine in other cities are given as follows: Prince Albert 172, Montreal 167, Ottawa 161, Toronto 160, St. John, N.B. 150. In the table showing the amount of rainfall for the year St. John N.B. leads with the precipitation of 46.22 inches, the other cities being recorded as follows: Montreal 40.70, Toronto 33.69, Ottawa 33.64, Winnipeg 21.17, Edmonton 16.92, Calgary 16.46, and Prince Albert 15.65. The table which has been prepared shows that the heaviest rain in the east fell during the winter months, but during the warmer, or growing months, there is but a very slight difference between the east and the west.

HATFIELD DOES PRODUCE RAIN

(Special to the Bulletin)

Vancouver, July 10.—Dispatches from Dawson City tell of the great success which has attended the efforts of C. M. Hatfield to produce rain. The first day he set up his apparatus rain began to fall in a fine drizzle, the next day several showers fell and continued until the fourth day when the rain fell in torrents. Since then it appears as though he has been able to produce rain whenever he desired. Prominent Dawson City people agree that more rain fell during the first week of Hatfield's experiments than has ever been recorded before during any one month. Hatfield comes from Los Angeles and for several years past has been making a success of the rain producing business in Southern California. He receives \$10,000 from the Yukon council for producing rain there.

Cures Rheumatism

"I had an attack of Rheumatism—pains near my heart—which increased to such a degree that I became very anxious. I lost my appetite, and an intense itching or heating of the head made life miserable. I asked a druggist, was there nothing he could suggest that would help me, and he replied 'Why not try ABBEY'S SALT?'"

I did so, and can now state positively, and without solicitation that the Rheumatism has disappeared—my appetite is grand—and the itching of my scalp has ceased.

I suggested to my aged Father and Mother that they should try ABBEY'S SALT for their Rheumatism—and they tell me they have received immense benefit."

STOP AND CONSIDER

Get in on the Ground Floor

North Jasper place has been very carefully subdivided by the Dominion Land Surveyors into Blocks, each containing twenty full sized lots of 150 feet x 50 feet. The streets are 66 feet wide and the lanes 16 feet. With the property sub-divided in this manner there will be no trouble in the future about allowances for streets, etc. The same cannot be said of many of the sub-divisions. Our advice is to buy a block, half block or quarter Block of this property, and buy it NOW, as there is nothing like getting in on the ground floor.

REASONABLE PRICES

EASY TERMS

With the view to giving the small investor an equal opportunity to that generally offered to the man with greater means, we have decided to offer a limited number of quarter and half blocks at the wholesale price. This will be readily appreciated by all who have only a small amount available for investment. We have quoted the very lowest possible figures on this property and from present indications the whole sub-division will be sold within the next thirty days. Prices must be advanced next week.

The sugar tariff went into effect on the 4th inst., and the cement tariff becomes effective July 15. The object in reducing the rates on cement is to encourage the use of that material by farmers in the west for the construction of farm buildings. Proportional reductions on all at ports not mentioned in the foregoing illustration on the company's system, west of Port Arthur. The reduction is not so great on the older portions of the line in Manitoba as on the new sections, rates having previously been reduced to a low basis on the former sections.

HOW WOULD YOU LIKE TO BE JOHN D?
At sixty-seven years of age, John D. Rockefeller is estimated to be worth \$600,000,000, according to the figures of careful investigators. Last year Mr. Rockefeller was worth \$52,000,000, showing a gain for the present year of \$78,000,000. In 1905 he had (in 1904) \$45,000,000, and in the year before that he was poorer still, \$25,000,000 representing his total wealth. In 1895 he had \$100,000,000, in 1875, \$7,000,000, and in the year before he was virtually bankrupt. When the huge snowball of Rockefeller's present fortune of \$600,000,000 rolls down the years, gathering as it does, the wealth of former Midwesterners will appear as mere congeries. His income this year, as above stated, is estimated at \$28,000,000. This is \$1,000,000 a month, \$164,380 a day \$4,688 an hour, \$114.16 a minute, or \$1.92 a second. And this is for every second of the year. The calculation for 33 years—Mr. Rockefeller's physical age says he has every prospect of living to be 100 years old—is startling. If his millions continue to increase at the present rate, Mr. Rockefeller, at the age of 100 years, will be worth about \$25,000,000,000. This is almost three times as much gold and silver as there is in circulation, in banks and all the treasure houses and mints on earth today.

GREAT NORTHERN VS. CANADIAN PACIFIC
(Friday's Daily)
Winnipeg, July 10.—The railway war being carried on between the Canadian Pacific and Great Northern systems gains in interest daily. A few days ago William Whyte, vice president of the latter road, stated work will be commenced at once on the construction of a new line in the Kootenay and Boundary Creek districts, which will, it is anticipated, meet the competition of the Victoria, Vancouver & Eastern line sanctioned at the last session of parliament and backed by J. J. Hill, the directing genius of the Great Northern. Work will also be commenced during the next few days on the Nicola branch from Courtenay in the same district. It will be only six miles in length but its importance lies in the fact that it is the beginning of a direct line which will cut off the circuitous bend that is unavoidable at present in the case of all lines connecting the Kootenay district with the C. P. R. main line to the Pacific coast. The completion of this line will mark the commencement of what promises to be a bitter fight between the Canadian Pacific and Mr. Hill for the traffic of the mineral country on the western side of the Rockies which the Canadian Pacific is determined to hold no matter what the cost. Of late several high officials of the company have been over the proposed route and are unanimous in their opinion that the line must be built at once.

—Lacrosse practice tonight on the second street grounds.

—W. Macdams of the Bulletin staff, left yesterday on a month's trip to the coast.

—The meeting of the shareholders of the Athletic Association will be held this evening in the Thistle rink.

—The Sunday school picnic of Grace Methodist church was postponed from yesterday afternoon to Tuesday next.

—"A" squadron, C.M.R. will commence regular foot drill shortly in the armoury, at the old curling rink. The escort for Earl Grey upon the occasion of his visit next September will be formed of a detachment of the C.M.R.

—Owing to the inclement weather the lawn social under the auspices of the Ladies' Aid of the Baptist church was postponed until Thursday of this week. The social will be held at the home of Mrs. Young, Clark street, three doors east of First street. Everybody welcome.

—Blairmore Times: A fatal accident occurred in the Frank mine on Friday of last week, the victim being Peter Murray, an unmarried man 26 years of age and a native of Scotland. It appears that the accident occurred while the deceased was digging out to place a new prop alongside of an old one and that while thus engaged the old prop slipped and let a piece of the wall down upon him. He was crushed under the fall of rock and his head badly mangled, death being instantaneous. The body was taken in charge by the Frank local of the U. M. W. of A., of which deceased was a member, and the body was taken in its last resting place in the Blairmore cemetery yesterday that organization Sunday.

CLOSING RECITALS

An hour of good music was enjoyed by those who attended the closing recital of the senior pupils of Vernon Harford, in the school room of All Saints' church last evening. The school room was well filled, and the young artists were greeted with rounds of applause upon the conclusion of their numbers. The pupils were assisted in the program by Mr. E. W. Mantle, baritone. Mr. Mantle is a stranger to Edmonton audiences, but it is safe to say he will not long remain so. He received his vocal training in a cathedral choir in England, and his singing last evening was evidence that his tuition has been very complete. A rich, full, mellow voice is his, with great range and power. He sang last evening, "Son of Mine," Wallace and Alca Noels, a Irish lullaby, which were both exceedingly well rendered, and enjoyed.

To the pupils of the pianoforte great praise is due. Mr. Harford's pupils have so often entertained in public that a lengthy description of their performances is entirely unnecessary. All the numbers upon the program were skillfully rendered, even the youngest of the pupils exhibiting a wonderful execution. Of those who deserve special mention is Miss Helen Montgomery, who plays with a masterly execution, and a marvelous depth of expression. Miss Edna Grindley rendered Durand's "Pomponette" with an exquisite touch and delightful manner. Miss Ernestine Berube is another pupil who demands special notice.

Miss Gretna Mercer was loudly applauded for her rendering of "Narcissus," Nevin. The following is last evening's program:

Cecile Chambliss—"Rigaudon" (Two Pianos)
The Misses Veima Ironsides, Edith Asley, Nora Campbell, and Helen Montgomery

(a) Ethelbert Nevin—"Narcissus" (b) Sapelnikoff—"Mazurka" Miss Gretna Mercer

William Wallace—"Son of Mine" (Vocal)
Mr. E. W. Mantle

Joseph Lowe—"Serenade" (Two Pianos)
The Misses Helen Montgomery and Ernestine Berube

August Durand—"Pomponette" Paul Wachs—"Valse Entrainante" Miss Edna Grindley

(a) Frances Thome—"Arlequin et Columbine" (b) Moritz Moszkowski—"Scherzino" Miss Helen Montgomery

Alliea Needham—"Irish Lullaby" (Vocal)
Mr. E. W. Mantle

(a) C. von Weber—"Invitation a la Valse" (b) Theo Leschetzki—"Mazurka in E-flat" Miss Ernestine Berube

Moritz Moszkowski—"Spanish Dance" (Two Pianos)
The Misses Gretna Mercer, Lilian Grindley and Jean Dawson.

On Monday afternoon the recital of the junior pupils was held, and on Monday evening the pupils of the intermediate classes gave their recital. Both of these were no less enjoyable than that of last evening, and the younger pupils showed remarkable advancement. On Monday afternoon Miss Jessie Potter, soprano, assisted the pupils in the entertainment, and sang "Goodbye," and "A May Morning," Denza.

In the evening, Mr. Harford, tenor, in his usual pleasing style, "Where'er Ye Walk," and "Total Eclipse," from Handel, and "The Soldier's Farewell," Adams.

The recitals in the classes of Mr. Harford's classes for the summer, and the classes will not re-open until September.

BIG MEET FOR RIFLEMEN

The annual gathering of the Territorial Rifle Association will open in Calgary a week from Monday. A team from Edmonton will leave at the end of the week to participate in the gathering. The Calgary Herald says:

Preparations are being made for the big meet at the Territorial rifle range up to 1,000 yards. The firing mounds and targets are now being put in condition, each target being covered with one thickness of heavy target paper and another of white. There will be 74 ready for use by a week from Monday, when the competition commences.

Fifteen men will be employed at the regular butts during the shooting, 12 register keepers, 5 on the range committee, 2 clerks, and 2 telephone men.

Visitors are expected in the city from the north line as far as Edmonton, from the east as far as Medicine Hat.

CALGARY GAME NOT FINISHED

Calgary, July 10.—The ball game tonight did not finish. The teams started playing in a cloud of dust and a high wind. Edmonton went to bat and made five runs with two men out when a shower stopped the game. They commenced playing again after the rain, but only played two innings and a half when called on account of darkness. The score was Edmonton 3, Calgary 3. Little and Willis batted Crist out of the lot.

THE ROSERY

This is the name Mr. E. H. Gross has chosen for his new ice-cream parlor next the Hudson's Bay store on Jasper avenue. The attention of a great many passers-by has been attracted by the beautiful window of the Rosery. The decorations are unique and artistic. The window is filled with a collection of palms, ferns, petunias and roses chosen and arranged with admirable taste and skill. Passing inside the visitor is greeted with cute little punnets of fresh fruits, and beautiful cut flowers in glass vases and gypsy baskets on the counter. To the rear leading into a cozy parlor is constructed a rustic decoration of silver birch. The parlor is provided with six neat tables where the visitors may be refreshed with delicious ices and sherbets.

Mr. Gross opened up a week ago and finds his business increasing so that he intends to enlarge his premises.
